Völklinger Straße 4  
40219 Düsseldorf  
Germany

On February 24, 2010 our next panel takes place in Cologne, Germany. Presentations of the topic: „Special agricultural products as precursors for biotechnological production processes“ will be followed by a round table discussion. Finally room for networking activities in a pleasant surrounding area makes this panel a perfect event.

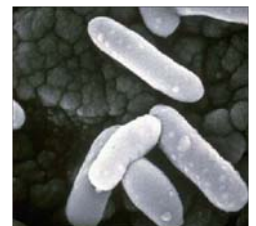

#### Lectures:

- **Biorefinery possibilities for agribusiness**  
Prof.dr.ir. Rob van Haren, Kiemkracht
- **plantustrial - Linking Plant and Industrial Biotechnology**  
Dr. Peter Welters, Phytowelt GreenTechnologies GmbH
- **Biotechnological supported plant breeding for providing special agricultural products—status and future prospects**  
Dr. Jens Weyen, Saaten-Union Biotec GmbH

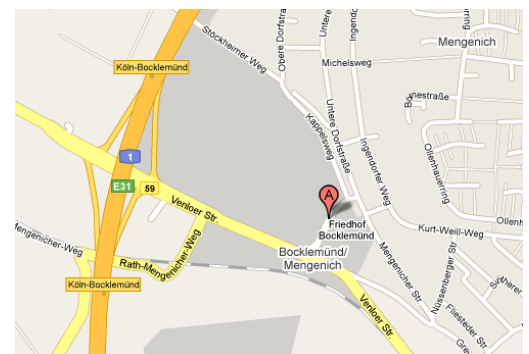

Short presentations (max. 5 min) can be held after the lectures to introduce your enterprise, institute or an actual project. If you like to take advance of this option, please contact Sabine Dues (dues@clib2021.de). Many thanks.

**Date:** Februar 24, 2010
